RE: MUR 5336

Dear Mr. Kelley:

To assist us in determining whether to recommend that the Commission find reason to believe a violation occurred in this matter, we write to seek any clarification and amplification you can provide concerning statements that appear in your response to the above complaint. Specifically, in the complaint local union president Chris Hunt indicated he reported political activity, allegedly consisting of the use of "supervisors and managers to distribute campaign literature," taking place on federal property and that there should be a security report documenting his complaint. Your response stated, "[i]n October 2002, the chief steward of the Transport Workers Union of America informed SGS that a foreman in one of its facilities was campaigning on company property" and that SGS investigated that report.

We would appreciate if you would clarify whether the "chief steward" to whom you refer is also the local union president who filed the complaint with the FEC. If they are not the same person, were the allegations in the union president's complaint also investigated? Please provide as much detail as possible.

This request should be considered strictly voluntary. Please be advised that if we do not hear from you before December 5, 2003, we will proceed to make our recommendation based on the information available to us at this time. If you have any questions, please call me before then at (202) 694-1650.

Sincerely,
